

## TMP Sales, Inc. - Manufacturers Represented

**I-PEX Connectors** – A division of Dai-ichi Seiko of Japan, I-PEX brand connectors are the market leader in flat panel display connectivity and wireless antenna applications. Connector product offering supports Micro RF Coax, Docking, FPC/FFC, Board to Board, Micro-coax and board to wire applications. Popular product families include MHF, Cabline, Novastack, Evaflex, Miniflex and Dualok.

**Tetrafab** – Manufacturer of custom cases for portable electronic instrumentation. Tetrafab provides design, manufacturing and logistics services supporting major electronic OEMs and small businesses. Project management team is supported by in-house industrial design expertise, CAD capability, prototyping and high volume offshore manufacturing.

**Siba Fuses** – Siba is the market leader for fuses in Europe with the most vertically integrated manufacturing facility for fuses in the world. Fuse offering ranges from circuit board fuses to high current/high voltage types you would find in wind turbines or industrial equipment. Square body fuses for lightrail transportation power stations and wind turbines, photo-voltaic fuses for inverters and ultra-rapid fuses for semi-conductor applications. Siba supports it's U.S. customers with several stocking locations and distributors.

**AEM Components** – Circuit protection components with multiple patents and proprietary technologies. AEM is well-known in the industry for providing the most extensive and comprehensive surface mount fuse lines and ESD protection. Our products, include AEM SolidMatrix<sup>®</sup> SMD fuse, GcDiode<sup>®</sup> ultra low capacitance ESD Suppressors, AirMatrix<sup>®</sup> SMD fuse, multilayer varistors, ferrite beads, and inductors.

**Holystone International** – Also known as *HEC*, Holystone is a leading manufacturer of MLCC's. Core product lines are: surface mount and through hole X and Y Safety Certified Capacitors, High Voltage Capacitors, and High Capacitance Capacitors. We also support a wide range of SMD Ceramic Capacitors from 0201 to 3640 sizes, at 6.3Vdc to 8KVdc, in NPO, X6S, X7R, X5R, and Y5V temperature coefficients. Through hole Safety Disc Capacitors are available in NPO, SL, X7R, Y5P, Y5V, and Y5U temperature coefficients with X1/Y1 and X1/Y2 class ratings. All Safety Certified Capacitors are recognized by TUV, U/L, CSA, and CQC agencies.

**Comchip Technology Co.** – Comchip offers SMD diodes including bridge rectifiers, fast efficient rectifiers, switching diodes, Zener diodes, Schottky diodes, TVS and ESD surge protectors. Recent expansion of product offering also includes power semiconductor devices including transistor and MOSFET solutions.

**C&M Corporation** – Wire and Cable, Custom Cable Assemblies and Retractable Coil Cords. C&M designs wire and cable, cable assemblies and retractable coil cords that meet the most demanding performance specifications for both power and signal.
